### Council Further Equips Town Fire Brigade

The Strathmore Town Council met on Tuesday evening. Those present were Mayor Bell and Councillors Bailey, Miller, Schulte, Quira Shrimpton and Moore.

The minutes of the last meeting were read and confirmed.

The condition of the road west of the Strathmore-Calgary corner was thoroughly discussed, after which it was decided to spend a sum not exceeding \$100 to put it in the best possible condition. Mayor Bell appointed the Council as a whole, a committee to investigate ways and means to secure the best results for the least amount of expenditure.

A communication was received from M. D. Bow Valley in reply to the proposition made regarding the location of building and maintaining corner stations at the park. Bow Valley Municipality were willing to make a grant of \$50, but could not do anything in regard to permanent maintenance.

The matter was tabled for future consideration.

The Curling Club made application to purchase portions of the lots, where the curling rink is situated, and the council decided to grant a lease for three years, subject to cancellation by giving one year's notice at a rental equivalent to the taxes upon the building and property occupied.

The mayor drew the attention of the council to the approval of the law, and referred to the waste damage and destruction of property that had occurred last year, emphasizing in no uncertain terms, that similar conditions would not be permitted this year without the culprits or their parents, or both, being punished to the fullest extent possible. Innocent fun among the youngsters was perfectly all right, but when so called sports causes the ratepayers such inconvenience, and after a considerable financial loss, it is time to make an example of those who have so little idea of how to conduct themselves.

It would be good business upon the part of parents to keep a close check upon the whereabouts of their children on Halloween.

Councillor Bailey was requested to report on the roof, which he did, recommending some minor repairs. J. V. Morris could easily make that remedy the trouble of a leaking roof, that has been causing secretary-treasurer Wears no end of inconvenience.

A complaint from Mr. Fisher regarding hawkers from outside points peddling fruit and vegetables without holding a license, will be given attention.

Councillor Schulte gave a most encouraging report in regard to the re-organizing of the Fire Brigade, and the enthusiasm and co-operation last year exists in the brigade.

It was decided to write to the Alberta Government. Telephones, re-questing that permission be given to Chief A. V. McFarland to act as Electrical Inspector for the town. Councillor Schulte made a decided bid that was being withheld upon Chief McFarland, without salary, the feature was pulling very strong, to the Scotch interests of Mayor Bell.

Councillor Schulte brought up the matter of obtaining a twenty horse power motor for fire protection purposes, the power for which is furnished free by the United Electrical and Engineering Co., that has the contract for street lighting.

There were several propositions from electrical supply houses, but that of the Canadian Westinghouse, to rent for three months at \$20 per month, rental to apply on purchase price of \$184.65. This arrangement was adopted in order to bring the outlay mainly into 1927 expenditures.

### Early Estimate of Wheat Crop is Too Low

WINNIPEG—Qualified, experienced surveyors seem to be unanimously of the opinion that the estimates of the wheat yield made some time ago are much too low, estimated Mr. E. W. Denny, Chairman and President of the Canadian Pacific Railway, in the course of a Western interview, and added the various forecasts submitted actively made would seem to indicate a production fully equal to that of last year, bringing the figure of yield to well over the 400,000,000 bushel mark. As our turn of this volume would appear to be further indicated by the surprisingly large yields which are being recorded in various parts of the prairie provinces and by the elaborate preparation which have been made for the harvesting and transportation of the crop.

Fifty thousand men have been engaged in supplementing the main harvest, and the wheat fields to aid in the harvesting of the crop and, due to the lateness of the season in Eastern Canada, where so many of the wheat crops are annually recorded, a situation threatened to develop in which there would be a dearth of help. This is, however, being mitigated with the assistance of the agricultural season in Eastern Canada. Meanwhile the Canadian Pacific Railway stands ready to transport the crop to its outlets at the head of the Lakes and Vancouver.

### Doctor Suggests Public Diagnosis Clinic

WINNIPEG—Provincial clinic for diagnosis of all diseases and a system of state sickness insurance, to hospital treatment within reach of the average citizen, were proposed by Dr. A. Stuart, retiring president of Manitoba Medical Association. Proper facilities for diagnosis were no longer within the reach of single medical men or groups of practitioners, he said.

GROWING GRAPES IN ALBERTA

Seven baskets, each weighing about 15 pounds, have been gathered by the Hutterites at Raymond, Alberta. The quality of the fruit is excellent, equal as good as the Concord shipped in from Ontario. Two years ago a number of small roots were imported from Minneapolis by the colony for the purpose of experimenting. Concord grapes can be successfully grown in Southern Alberta. Next year more of this fruit will be harvested, but sufficient fruit can be harvested to take care of their domestic requirements. The object in growing grapes by this colony is for the purpose of making wine. The small crop harvested this fall will be sufficient to supply each family with a sample bottle containing one pint of Strathmore Alberta grape wine.

### New Blood In the King Cabinet

TORONTO—The Financial Post remarks that business men have little cause to complain of current political developments. There is a government in power that has numerical strength, the value of which we have come to know. It has announced a cabinet that includes many able business men and that, as cabinets go under the Canadian system, is a good body of men.

Hon. James A. Robb's return to the ministry of finance was expected. He goes back with increased influence and prestige. He can speak with the greatest confidence in insisting on common-sense policies in government.

Hon. James Malcom's advent to the very important ministry of trade and commerce can only call for commendation. His past record makes him a man of great promise. The country expects of the minister of trade and commerce that he will actively promote the sale of Canadian goods abroad. That calls for superior qualities in our products, for good salesmanship and broad vision. Malcom, as a manufacturer, has made superior furniture, and his success in marketing it shows he understands salesmanship.

He has a fine opportunity to increase the practical usefulness of the department. Under Sir George Paquet the department showed a tendency to become a bureau of young college graduates who had learned all they knew of business from a book, lectures and three months' training as Ottawa, from where they were sent to the different corners of the world to sell Canadian goods. Extension of the foreign trade service, with practical men in the field, would be a move worthy of Mr. Malcom. He has only to follow policies begun by Mr. Robb and Mr. Low to keep his department improving.

The other appointment that is of great importance to the business interests is that of Customs. Mr. Baker's record has been chiefly political, but he is very well informed. In a keen study of public affairs, and his numerous analyses of the railway situation.

### M.D. Bow Valley Council Meeting

A regular meeting of the Council of M. D. Bow Valley, No. 219, was held in the Municipal Office, Strathmore, on Wednesday, October 13th, 1926, commencing at 10:30 a.m. All Councillors present.

The minutes of the last meeting were adopted as read.

Permit was given the C.P.R. Co. to either close or remove the bridges over their abandoned canals between the road allowance between Sections 20 and 21-24-25-W4th. Consent was given contingent upon the Company obtaining title to the land on the West side of the canal at present owned by Mr. Roze.

The Council agreed to allow the C.P.R. Co. to take out the bridges over their abandoned canals between the road allowance between Sections 20 and 21-24-25-W4th.

Instruction was given to have a road between sections 28 and 32-25-W4th, opened and obstacles at present thereon removed.

By-laws No. 85 and 86 were given three readings and passed unanimously. These by-laws provide for the appropriation of certain lands needed for road divisions in 4, 5, and 8-25-W4th, and in 27-24-25-W4th.

The need for proper police protection in the Municipal District was brought to the attention of the Council, and Mr. John Hesketh, of Carleton Place, was appointed Constable of the Municipality.

Consent was given the Dept. of Public Works to close the railway crossing between sections 17 and 24-25-W4th.

Statement of the Municipal Finances as at September 30th, was submitted to the Council and received.

Letter from the Hall Insurance Company of Alberta was read to the Council in which we were advised that our levy for 1926 was \$28,755.84. This was accepted and the Secretary advised that all notices required had been forwarded.

The Pound Brand was renewed for a further period of four years from January 1st, 1927, to January 1st, 1931.

A case of market fever was reported to the Council. The necessary quarantine had been enforced.

Repair of a 12 foot gutter during the winter, in readiness for spring was authorized.

Purchase of the 1926 Amendments to the Revised Statutes of Alberta, 1926, was authorized. These are available for consulting to any taxpayer of the Municipality.

The secretary was instructed to write the Highway Commissioner regarding the condition of the abandoned part of the Calgary Highway that main highway.

A number of bills were authorized paid.

D. N. GARDINER, Secretary-Treasurer

### SCOUT NOTES

### FIRST STRATHMORE TROOP BOY SCOUTS

Any members of the Troop who wish to obtain copies of the pledge books taken at camp should make application to Scoutmaster Dunn before October 30, so that one order can be made for all that are required. A small charge will be made for these to cover to collect them.

The necessary signalling apparatus is now on hand and work for signaller's badges will begin on October 25th. All scouts should endeavour to be present.

A letter has been received from Assistant Chief Commissioner Stiles of Ottawa, which congratulates the troop on the successful camp held in August.

The Troop will begin collecting toys and clothing for the Herald Scoutmaster's fund on the first of November. Any person who has any cast off clothing and discarded toys should notify the Scoutmaster and scouts will be glad to collect them.

The Calgary troops will operate their toy repair shop again this year, and the local boys will be glad to receive toys of all kinds, broken or whole.

### CALGARY MASONS VISIT STRATHMORE

On Monday about forty Calgary Masons visited Strathmore, putting on the degree work and the entertainment program.

Wor. Bro. Cooper and his officers of St. Mark's Lodge took over their respective chairs of office, on being welcomed to Strathmore Lodge, No. 3, G.R.A. & A. M., on their first visit, by Wor. Bro. C. S. R. Laic.

The visiting party was warmly received by several members of other lodges, including a number of Past Masters, who participated in the initiation ceremony.

About 10:30 o'clock members and visitors adjourned to the Memorial Hall dining room, where a bounteous repast had been laid, to which feast everyone did justice.

The program was varied, including songs, trombone solos, comic recitations, toasts, etc. Wor. Bro. Harold Bell acted as chairman of the evening. The banquet was brought to an end about midnight to the cheers of both the members of Strathmore and St. Mark's lodges.

### SCHOOL COLUMN

#### SCHOOL FAIR

There are still three schools that have not paid their entry fees. Notice has the government grant been received.

Teachers who have not yet sent in a list of prizes claimed should do so without further delay.

Bertie Valley school has won the diploma awarded by the Dept. of Education. Omega Valley came a very close second.

An effort will be made to pay prize money this week.

#### Essay Competition

The following are the rules governing the Essay Competition under the auspices of the Strathmore Branch of the Canadian Legion.

1. Subject: "Canada's Part in the Great War."

2. Length: Not less than three hundred and not more than five hundred words.

3. Competitors are to write on one side of paper only.

4. Name, age, and grade of pupil to be written on paper.

5. All compositions must be accompanied by a statement signed by parent and teacher that the essay is the work of the pupil.

6. Essays must be in the hands of the Secretary of the Canadian Legion, British Empire Service League, Strathmore branch, by November 5th.

7. No work will be considered that does not abide by these conditions.

One prize will be awarded to High School student, one to grade VI, VII and VIII, and one to the junior grades. In each case the prize will be a gold medal.

### THE HOME NEWS

Business men, generally, hope that there will not be a series of bye-elections but that the ministers will go back unopposed. Cabinet bye-elections are a red flag to the public, should be abolished. In fact, our whole cabinet system is out of date. The prime minister should be given the opportunity of choosing his advisers and administrators from among the best men in the country and should not be restricted to members of the house of commons.

Such a system has worked well in the United States and gave Mr. Coolidge, Mellon and Hoover.

The Bradford Examiner, which, with the Toronto Globe and other Liberal papers, has not been friendly to Hon. Mackenzie King's leadership, take exactly the same view of the results as does The Financial Post, that it was the Robb budget and Co-operative federal error that brought the Liberals back strong, and that if the Liberals had abandoned the constitutional issue and concentrated their appeal on reducing taxation, the results would have been even more decisive.

It is now announced that Mr. Dunning will go to the Imperial Conference as representative of the great producing interests of the west. Equally, if not more important, is Baker's record has been chiefly political, but he is very well informed. In a keen study of public affairs, and his numerous analyses of the railway situation.

Even if there are no formal results, the presence of the representatives of the agricultural and manufacturing interests will be influential and will have a real moral influence on this and future conferences. As we pointed out some months ago, the presence of the couple of men of this type will be worth a whole army of theorists, professors of impractical economics, moralists, and others of this type who have dominated previous conferences, men who talked much but never produced anything practical. On the other hand experience has shown that a few practical men, such as Dunning, Malcom, sitting round a table can quickly arrive at some working basis for improving and extending British Empire trade. This is what we need more.

We doubt if Mr. Robb could pass a primary examination in college commerce but that a few practical men and get through for Canada the most profitable trade arrangement in many years.

## Council Further Equips Town Fire Brigade

The Strathmore Town Council met on Tuesday evening. Those present were Mayor Bell and Councillors Bailey, Miner, Schulte, Quinn, Shrimpton and Moore.

The minutes of the last meeting were read and confirmed.

The condition of the road west of the Strathmore-Calgary corner was thoroughly discussed, after which it was decided to spend a sum not exceeding \$200 to put it in the best possible condition. Mayor Bell appointed the Council as a whole, a committee to investigate ways and means to secure the best results for the least amount of expenditure.

A communication received from M. D. Bow Valley in reply to the proposition made recently in regard to building and maintaining concrete stations at the point where Bow Valley Municipality were willing to make a grant of \$50, but could not do anything in regard to permanent maintenance.

The matter was tabled for future consideration.

The Curling Club made application to purchase portions of the lots, where the curling rink is situated, and the council decided to offer them a lease for three years, subject to cancellation by giving one year's notice at a rental equivalent to the taxes upon the building and property occupied.

The mayor drew the attention of the council to the approach of Halloween, and referred to the winter season and destruction of property that had occurred last year, emphasizing in no uncertain terms, that a similar condition would not be permitted this year without the council or their parents, or both, being penalized to the fullest extent possible. Innocent fun among the youngsters was perfectly all right, but when a careless sport causes the ratepayers much inconvenience and often a considerable financial loss, it is time to make an example of those who have so little idea of how to conduct themselves.

It would be good business upon the part of parents to keep a close check upon the whereabouts of their children on Halloween.

Councillor Bailey was requested to "report on the road," which he did, recommending some minor repairs, that J. V. Moran could easily make that would remedy the trouble of a leaking roof, that has been causing secretary-treasurer Wears no end of inconvenience.

A complaint from Mr. Fisher regarding hawkers from outside points peddling fruit and vegetables without holding a license, will be given attention.

Councillor Schulte gave a most encouraging report in regard to the reorganizing of the Fire Brigade, and the enthusiasm and cooperation that now exists in the brigade.

It was decided to write to the Alberta Government Telegraph, re: requesting that permission be given to Chief A. V. McFarland to act as Electrical Inspector for the town. Councillor Schulte made a statement to the Council when he informed that this was another job that was being whiped about by Chief McFarland without the town's best interests appearing very strongly to the Scotch Industries of Mayor Bell.

Councillor Schulte brought up the matter of obtaining a water hose power motor for fire protection purposes, the power for which is furnished free by the United Electrical and Engineering Co., that has the contract for street lighting.

There were several propositions from electrical supply houses, but that of the Canadian Westinghouse to rent for three months at \$20 per month, rental to apply on purchase price of \$145.00. This arrangement was adopted in order to bring the rental mainly into 1927 expenditures.

Councillor Schulte became so enthusiastic in discussing the details and benefits to be derived in having this additional fire equipment that it looked as though the council was in for an all night session. However, Mayor Bell came to the rescue, introduced the closure, and soon it was possible to wind up the session.

Current accounts amounting to about two hundred dollars were referred to the Finance Committee.

## M.D. Bow Valley Council Meeting

A regular meeting of the Council of M. D. Bow Valley, No. 219, was held in the Municipal Office, Strathmore, on Wednesday, October 13th, 1926, commencing at 10:30 a.m. All Councillors present.

The minutes of the last meeting were adopted as read.

Remuneration was given the C.P.R. Co. to either construct or remove the bridges over their irrigation canal on the road allowance between Sections 29 and 31-23-24-25. Valued, consent was given contingent upon the Company obtaining title to the land on the west side of the canal at present owned by Mr. Rose.

The Council agreed to allow the C.P.R. Co. to take out the bridges over their abandoned canals between Sections 29 and 31-23-24-25.

Instruction was given to have the road between sections 23 and 25-25-26 4th, opened and obstacles at present there removed.

Resolutions No. 85 and 86 were given three readings and passed unanimously. These by-laws provide for the appropriation of certain lands needed for road diversions in A. 5 and 27-25-26 4th, and in 27-24-24 and in 27-24-24 4th.

The need for proper police protection in the Municipal District was brought to the attention of the Council, and Mr. John Hesketh, of Carleton Place, was appointed Constable of the Municipality.

Consent was given the Dept. of Public Works to close the railway crossing between 16 and 17 24-25 4th.

Statement of the Municipal Finances as at September 30th, was submitted to the Council and received.

Letter from the Hall Insurance Board of Alberta was read to the Council in which were advised that our levy for 1926 was \$18,765.04. This was accepted and the Secretary advised that all notices required had been forwarded.

The Pound Brand was renewed for a further period of four years from the 21st of December, 1926.

A case of scarlet fever was reported to the council. The necessary quarantine had been enforced.

Repair of L.V. 12 foot grader during the winter, in readiness for spring work, was authorized.

Purchase of the 1926 Amendments to the Revised Statutes of Alberta, 1922, was authorized. These are available for consulting to any interested member of the Municipality.

The secretary was instructed to write the Highway Commissioner regarding the condition of the abandoned right of way of the Calgary Medicine Hat main highway.

A number of bills were authorized paid.

D. N. GARDNER, Secretary-Treasurer

No wonder the local nincompoes are leaving troughs, securing a few ducks. Leitch Spencer, of the Calgary Herald, has been here and cleaned up the district completely.

## Early Estimate of Wheat Crop is Too Low

WINNIPEG—Qualified, experienced farmers seem to be of unanimity of the opinion that the estimates of the wheat yield made some time ago are much too low, remarked Mr. E. W. Dosty, Chairman and President of the Canadian Pacific Railway, in the course of a Western interview, and added the various forecasts submitted actively made would seem to indicate a production fully equal to that of last year, bringing the figure of yield to well over the 600,000,000 bushel mark. As our turn of this volume would appear to be further indicated by the surprisingly large yields which are being recorded in various parts of the Prairie Provinces and by the elaborate preparations which have been made for the harvesting and transportation of the crop.

Fifty thousand men have been engaged as supplementary help in the western grain fields to aid in the harvesting of the crop and due to the lateness of the season in Eastern rural Canada where so many harvesters are annually recruited, a situation threatened to develop in which there would be a dearth of help. This is, however, being mitigated with the termination of the agricultural season in Eastern Canada. Meanwhile the Canadian Pacific Railway stands ready to transport the crop to its outlets at the west end of the Lakes and Vancouver.

C.P.R. Case Handle 300 Million Bushels of Grain. In Western Canada the Company has massed 41,216 box cars with a combined capacity of approximately 625,000,000 bushels of grain, each trip. Estimating that each car will make five trips between the grain fields and the head of the Lakes or Vancouver, the Company is in a position to handle 300,000,000 bushels of grain during the four months of the grain rush.

The magnitude of the concentration of box cars can be realized when it is pointed out that that placed side to end they would stretch for 320 miles, and that it would take the Trans-Canada the fastest transcontinental train in Canada eight hours to pass the line. No less than 1,216 locomotives, capable of hauling a combined tonnage of 2,718,000 tons, and located on the Company's lines in Western Canada, and of these 1,110 have been assigned to keep the grain and normal traffic moving.

The movement of this gigantic volume of grain from Western Canada to its various destinations is a tremendous undertaking. About 50 per cent of the Canadian wheat crop is produced in the Western provinces, and about 70 per cent of this leaves the country either in the shape of wheat or flour. About 50 per cent of the total exports have in the past been in a raw state and the other 50 per cent, manufactured. The proportion of the Canadian crop available for export, by reason of the small domestic consumption, has given Canada a world leadership as an exporter of wheat, while in the present year Canada has assumed the first place as exporter of wheat, her figures of export exceeding those of all other countries in the first eight months period.

## CALGARY MASONS VISIT STRATHMORE

On Monday about forty Calgary Masons visited Strathmore, putting on the degree work and the entertainment program.

Wor. Bro. Cooper and his officers of St. Mark's Lodge took over their respective chairs of office, on being welcomed to Strathmore Lodge, No. 31, G.R.A., A.P. & A.M., on their first visit, by Wor. Bro. C. S. Laith.

The visiting party was welcomed by several members of the local lodge, including a number of Past Masters, who participated in the initiation ceremony.

## Doctor Suggests Public Diagnosis Clinic

WINNIPEG—Provincial clinic for diagnosis of all diseases and a system of state sickness insurance, to put hospital treatment within reach of the average citizen, were proposed by Dr. A. Stuart, retiring president of Manitoba Medical Association. Proper facilities for diagnosis were no longer within the reach of single medical men or groups of practitioners, he said.

GROWING GRAPES IN ALBERTA. Seven bushels, each weighing about 17 pounds, have been gathered by the Hutterites at Raymond, Alberta. The quality of the fruit is excellent, equally as good as the Concord grapes shipped in from Ontario. Next year more of this fruit will be planted until sufficient fruit can be harvested to take care of their domestic requirements. The object in growing grapes by this colony is for the purpose of making wine. The small crop harvested this fall will be sufficient to supply each member with a sample bottle containing one pint of Southern Alberta grape wine.

## SCOUT NOTES

### FIRST STRATHMORE TROOP BOY SCOUTS

Any members of the Troop who wish to obtain copies of the photographs taken at camp should make application to Scoutmaster Dunn before October 30, so that one order can be made for all that are required. A small charge will be made for these to cover cost.

The necessary signalling apparatus is now on hand and work for signalers' badges will begin on October 25th. All scouts should endeavour to be present.

A letter has been received from Assistant Chief Commissioner Stiles of Ottawa, which congratulates the troop on the successful camp held in August.

The Troop will begin collecting toys and clothing for the Herald Shopping Fund about the first of November. Any person who has any cast off toys or discarded toys should notify the Scoutmaster and scouts will be sent to collect them.

The Calgary troops will operate their toy repair shop again this year and the local boys will be glad to receive toys of all kinds, broken or whole.

## New Blood In the King Cabinet

TORONTO—The Financial Post remarks that business men have little cause to complain of current political developments. There is a government in power that has numerical strength, the value of which we have come to know. It has announced a cabinet that includes many able business men, and as cabinets go under the Canadian system, is a good body of men.

Hon. James A. Robb's return to the ministry of finance was expected. He goes back with increased influence and prestige. He can speak with the greatest confidence in insisting on common-sense policies in government affairs.

Hon. James Malcolm's advent to the very important ministry of trade and commerce was only call forth commendation. His past record makes him a man of great promise. The country expects of the minister of trade and commerce that he will mainly promote the sale of Canadian goods abroad. That calls for superior qualities in our products for good salesmanship and broad vision. Malcolm, as a manufacturer, has made superior furniture, and his success in marketing it shows he understands salesmanship.

He has a fine opportunity to increase the practical usefulness of the department. Under Sir George Foster the department showed a tendency to become a bureau of young college graduates who had learned all they knew of business from a book, lectures and three months' training at Ottawa, from where they were sent to the different corners of the world to sell Canadian goods. Extension of the foreign trade service, with practical men in the field, would be a more worthy of Mr. Malcolm. He has only to follow policies begun by Mr. Robb and Mr. Low to keep his department improving.

The other appointment that is of great importance to the business interests is that of Customs. Mr. Eider's record has been chiefly political. He is a very well regarded man, a keen student of public affairs, as his numerous analyses of the railway situation show.

### SCHOOL FAIR

There are still three schools that have not paid their entry fees. Neither has the government grant been received.

Teachers who have not yet sent in a list of prizes claimed should do so without further delay.

Lerra Vale school has won the diploma awarded by the Dept. of Education. Grange Valley has a very close second.

An effort will be made to pay prize money this week.

### Essay Competition

The following are the rules governing the Essay Competition under the auspices of the Strathmore Branch of the Canadian Legion.

1. Subject: "Canada's Part in the Great War."
2. Length: Not less than three hundred and not more than five hundred words.
3. Competitors are to write on one side of paper only.
4. Name, age, and grade of pupil to be written in pencil.
5. All compositions must be accompanied by a statement signed by parent and teacher that the essay is the bona-fide work of the pupil.
6. Essays must be in the hands of the secretary of the Canadian Legion, British Empire Service League, Strathmore branch, by November 6th.
7. No prize will be considered unless done aside by these conditions.
8. One prize will be awarded to VII Strathmore students, one to grades VI, VII and VIII and should go to the school in each case the prize will be a gold medal.

situation indicate, and will have the backing of Canadian business in any forward policies he may adopt.

Generally speaking, the cabinet is not disatisfying. It is too large; of that there is no doubt. The President of the United States has but ten advisors and department heads. Mr. King has fifteen cabinet ministers, and at least one more is to be appointed. Each of these ministers will have secretaries and an organization about him to spend money. The more departments there are the more money there are to spend money. The cabinet does not show any tendency away from our expensive trend in cabinet making.

Business men, generally, hope that there will not be a series of by-elections but that the ministers will be back unopposed. Cabinet by-elections are a relic of the past that should be abolished. In fact, our whole cabinet system is out of date. The prime minister should be given the opportunity of choosing his advisors and administrators from among the best men in the country and should not be restricted to members of the house of commons or senate, since a system has worked well in the United States and gave Mr. Coolidge, Mellon and Hoover.

The Imperialist Enthusiast, which, with the Toronto Globe and other Liberal papers, has not been friendly to Hon. Maclean's King's leadership, take exactly the same view of the results as does The Financial Post, that it was the Robb budget and Conservative tactical errors that brought the Liberals back strong, and that if the Liberals had abandoned the "constitutional" issue and concentrated their appeal on reduction in taxation, the results would have been even more decisive.

It is now announced that Mr. Dunning as representative of the great producing interests of the west. Equally, if not more important, is the presence there of the new Minister of Trade and Commerce. In no other way can Mr. Malcomy, as through him Canadian business, get better into friendly touch and more intelligent understanding with the leaders of great groups of people who want to trade with us. Moreover, we suspect that the all-powerful international battleship-munitions trust will, as usual, be very busy in the background and urge empire defence and big contributions from the overseas dominions thereof, before all other problems. The presence of Dunning and Malcolm, of whose sound imperialism there is no question, will prevent the over-riding of this and the side-stepping of inter-empire trade—which, after all, is the only sound basis upon which the empire can be built up and maintained.

Even if there are no formal results, the presence of the representatives of the agricultural and manufacturing interests will be necessary and invaluable experience for them and will have a real moral influence on most and future conferences are pointed out some months ago, the presence of a couple of men of this type will be worth a whole army of theorists.

We doubt that Mr. Robb could pass a primary examination in college economics, but he went alone to Australia and should be able to quickly arrive at some working basis for improving and extending British Empire trade. This is what we need more.

As the conference is being held at a profitable table arrangement in many years.

## Men's and Boys' UNDERWEAR

Full range of materials and sizes in the following makes: Stanfields, Jaeger, Hatchway, Trunk and Tiger Brand. Men's heavy wool Stanfields, Blue Label, \$5.50; Red Label \$4.50

Men's fine wool and mixed Stanfields, at \$3.00 and \$5.25

Men's silk and wool Underwear, \$6.00 and \$7.50

### WE HAVE CUSTOMERS ALL OVER ALBERTA WHY NOT YOU?

If you live in smaller towns, or in the rural sections, where fine dry cleaning and dyeing are hard to get, send your cleaning and dyeing by parcel post to the 'Empire' in Calgary.

We have a modern plant, fully equipped, and turn out the prettiest dry cleaning and dyeing in Alberta. Price List and information upon request.

*Empire Cleaning & Dyeing Ltd.*

234-236 12th Ave. West, Calgary, Alberta,  
Opposite Public Library

### BASEBALL

Bill Rogers, formerly manager of the Calgary Brinks, and also who this year handled the Peoria, Illinois team, always has time to listen to a good baseball story. On the other hand, he generally has a good one to tell. This one from him has to do with two little Texas towns quite a distance apart. On the way over to the town where the game was to be played, several of the visiting team members became ill and the manager found himself short-handed when the game started. He had only eight serviceable players.

"After a conference between the rival managers it was decided that the visiting team should pick its ninth player from the crowd in the grandstand, the first choice to be final.

"As luck would have it, the man chosen was a fellow who was about to see his first game.

"Everything went well until the second inning when the novice stepped up to bat. With a mighty swing he hit the ball squarely and it sailed high over second base, on and on till it landed in the tall grass in centre.

"While the people in the grandstand yelled for him to run, the batter just stood still.

"A second later the captain reached the placed slinger, madly gesticulating as he shouted, 'Run! you \*777\* fool! Run!'

Leaning on his bat in calm defiance, the motionless batter answered in cold scorn:

"Run, hell, I'll buy 'em a new ball!"

### THE ENDLESS CHAIN SELLING PLAN

Down in Louisiana they are getting after the "endless chain" plan of selling hosiery and other lines which has been sweeping some of the larger cities in Canada and the United States. In fact the State, by the enactment of a new law, has pretty nearly dealt it a death blow.

The most important provisions of the act are those which require that any person or firm engaged in any system of merchandising by means of an endless chain must first obtain a permit from the Louisiana Securities Commission, must pay a fee of \$25 yearly and must obtain a permit in every agent for which an additional fee of \$1 is charged. Prior to the issue of these permits a sworn statement must be filed with the commission giving the names and addresses of all principals of the applicant firm, a full statement of assets and liabilities and a detailed explanation of the plan of operation.

As each person who takes part in the endless chain becomes an agent, this would mean that each would have to put up \$1 and obtain a permit to dispose of coupons. Under such circumstances it is difficult to see how the plan could operate at all; and it will have to be admitted that the individual who framed the regulation has displayed considerable ability.

Companies that have organized in Canada have had to depend entirely on the work of their agents. Each buyer of a coupon from a friend has to present it to head office where he was given three others which in turn had to be disposed of to three other friends—and incidentally the company was getting \$15 for every five pairs of hosiery sold. This means that each holder of a coupon became an agent for the endless-chain firm.

As a matter of fact, any plan whereby a person secured five pairs of silk hose worth over \$10 for \$1 could not be considered sound by anyone giving the matter any thought. Some must lose in the game sooner or later.

As Dry Goods Review has already reported, there will be a strong attempt made in Canada to have an Act put through making the scheme illegal in this country. Perhaps if the Act were put together permitting it under such restrictions as in Louisiana, it would be easier to get it past Parliament—Exchange.

### KEOMA

Notice—The Masquerade Dance is on Thursday, October 21st, at 8:00, Friday, as previously announced, Chapin's orchestra. Everybody come and have a good time.

Mrs. George Wilson entertained a few friends in honor of her sister, Mrs. Hopson, last Thursday.

Mr. and Mrs. Lee visited Mr. and Mrs. Grey last Sunday.

The relief station agent, who has been with us for some time, Mr. John McKee, left last Monday for Husker, much to the regret of the many friends he had made while here.

### HOW GOLD WAS WON FROM SEA

Details of the heroic efforts—extending over seven years—which resulted in the recovery of more than \$5,000,000, mostly in gold bars, from the wreck of the liner *Laurentic*, have recently been published, writes a London correspondent.

The *Laurentic* was sunk by a mine off Lough Swilly in January, 1917, and the salvage of the hull, which was urgently needed at the time, was entrusted to Commander G. C. C. Damsant, R.N. The vessel lay in 120 feet of water, and on March 4th of that year the first box of five goldbars was sent to the surface. It looked as if Damsant said, "as if a few weeks would see a job done which actually spread over seven weary years."

While Ship Cranes in Galce sprang up, and down below the action of the water was such that the debris were piled on debris. The whole ship was found, when examination was possible, to have been shut up like a concert hall. The heavy gold bars were lying down to the lowest depths of the sea floor.

The problem was no longer one of removing gold boxes, for the once proud *Laurentic* has ceased to be a ship. She was just a litter of crushed and tanked metal sprayed about on the sea floor, and the gold bars were no longer in one closed sealed room, but in 3,000 pockets wherever they had fallen or crept. At every gate the Atlantic swell churned and broke the tangled mass of steel more and more and redistributed the gold hidden within it and beneath it.

Seeing that he could no longer rescue the gold in bulk from the wreck, Commander Damsant had to contemplate the removal of the wreck from the gold by cutting right down through it and by clearing a way to the bottom of it, and then picking up the gold bar by bar.

The work was accomplished, and by the end of August, 342 bars, valued at about \$250,000, had been brought up. The pocket of gold exhausted itself in 1919. Winter gales followed, and two succeeding years were almost blank as regards gold. By the end of 1921 so much of the wreck's structure had been blown away so thoroughly to the surface that the salvagers had to dig through the ship from top to bottom as they lay and reduced the steel scrap heap to a semblance of order.

Over Saw Gold Bars in Sand In the spring of 1922, when the diver went down he actually saw a number of gold bars sticking out of the sand. Powerful hose pipes were used by the divers, who could thus drive away the sand and stones with the nozzle in one hand, while with the other they felt for the gold.

By September, 1924, when the operations ended, all but twenty-five of the bars had been accounted for. It was as if Commander Damsant had found Father Neptune a consoling portfolio of \$42,500, after dragging \$5,415,000 out of his zip.

As to the transport of the gold to London, where a quarter of a million or so had accumulated in a destroyer, arrangements would be made for a vessel to run over to the coast, where a representative of the Bank of England would appear with lorries and take it off to the train.

### CHEADLE

Miss Dawson and Miss Florence Craig spent the week end in Calgary.

Mr. Shell, of Decatur, Ill., was in town, for a few days visiting Mr. and Mrs. Smith, and looking over his crop.

Mr. and Mrs. Harry Miner were in town for a few hours seeing Mr. Shell off on his return to Illinois.

Railly Day services were held on Sunday, October 10th, at the hall, and were conducted by the Rev. Mr. Howe.

Considerable threshing is being done in the district, but as the grain is so dry and some of it has tested out damp.

Charlie Cowell threshed 160 acres that yielded 43 bushels to the acre of Red Bob wheat.

Mr. Noah Doyle was in the district for a few days looking after his crop interests.

Little Donald Komick, who has had the scarlet fever, is up and around, but still confined to the house. Mrs. Komick and Olga were sick for a few days, but are feeling pretty good again.

Miss Margaret Newmeyer is nursing a badly cut hand, from falling while in the garden.

Dods have been making Underwear for Outdoor folk for forty-one years. To secure the right underwear make sure you see the label on every garment you buy.

## A Real Investment at Last!

### VITOMEN CEREAL LIMITED

is the name of the new company organized to profit by the huge quantities of Canadian grain now passing through the Port of Vancouver. The Company has purchased from the Manitoba Grain Company Limited, the site at 285 First Avenue East, Vancouver, B.C., and the Manitoba Grain Company is building the Vitomen Cereal Limited, as the first unit of their factory, a building to be of 140 feet of solid mill construction. This building will be included in the sale and transfer of properties from the Manitoba Grain Company, Ltd. to Vitomen Cereal Limited. In addition to this, as elevator and warehouse at later date, plans of which are all ready out, for the purpose of continuing and extending the original business of the Manitoba Grain Company Limited. The Company owns and controls the right to manufacture and sell in Canada, and to export to all parts of the British Empire and elsewhere, the new cereal food product known as "Vitomen Shreds." This Company also holds the right to use the copyrighted name "Vitomen" on all other food products to be manufactured by it. The control of Vitomen Cereal Limited is not in the hands of a few people, as 250,000 of our 500,000 shares capitalization will be offered to the Canadian public at the par value of \$1.00 per share. All shares are common, each carrying a vote in the affairs and management of the company and participating equally in the earnings.

### Unlimited Potential Market

Vancouver has been selected for the location of the first factory for the manufacture of Vitomen Shreds. Grain is in abundance. Other components are available close at hand, reducing transportation costs on raw materials to a minimum. It is intended to develop the Canadian Market first, extending it thereafter to Great Britain and the entire British Empire. The plant in Vancouver now being built and equipped at a cost of some \$50,000 will care for an initial production of 1,000 cases of Vitomen Shreds daily, each case containing twenty-four standard size packages.

### Managed by the Right Men

Vitomen Cereal Limited will be controlled and directed by western business men, experienced and successful in the grain trade and the allied manufacture of cereal foods. This is important—it means intelligent, efficient and economical management and substantial profits to the shareholders. The President of the company, Mr. J. W. Lange, is a Vancouver manufacturer of long standing and experience. Mr. G. M. Geiger, vice-president, formerly of Seattle, has been a cereal manufacturer for many years past. The secretary-treasurer, Mr. E. T. Macchett of New Westminster, is experienced in the grain and retail trade. The services of these men are invaluable to the company. Their combined experience should surely bring success to such an undertaking.

# Unlimited Possibilities for Profit Making in this New Canadian Industry

A new Industry, operating under a Dominion Charter, combining the operation of an Elevator, Grain, Cereal and Feed business with the manufacture and marketing of an Entirely new Balanced Breakfast Food—an industry with an almost unlimited market and vast possibilities for profit-making—the Public is invited to co-operate and share in this great investment opportunity.

## Huge Profits

The profits made by the American breakfast food manufacturers are almost unbelievable! Huge fortunes have been amassed and are still being made, as the following figures demonstrate:

\$500 in Kellogg Corn Flakes Co. pays 100% daily.  
\$500 in Postum Cereal Co. has returned \$150,000.  
\$500 in Shredded Wheat Co. is worth \$50,000.  
\$500 in Cream of Wheat Co. is worth \$100,000.

The following extract from "Saturday Night" of March 20, 1926, also makes interesting reading:

"SHREDDED WHEAT COMPANY'S INCOME: The Shredded Wheat Company of Canada reported at its annual meeting in Niagara Falls on February 25th a gross income for the year of \$1,875,751. Dividend amounting to \$100,000 will be divided amongst the shareholders. After the present quarter of the financial year is closed every shareholder will receive four shares for his one present share. The company wrote off \$500,000 for goodwill. Although the profits for the year were greater than last year, the dividends were lower because of the fact that the new factory was built and equipped out of income.

## INVESTIGATE FULLY

Consider the possibilities of profit-making in this undertaking for YOU. Mail the Coupon today for complete information as to this co-operative and profit-sharing organization.

## First Purely Canadian Breakfast Food

### Vitomen Shreds

The New Balanced Breakfast Food

will be one of the chief products of Vitomen Cereal Limited. Vitomen Shreds being a highly nutritious breakfast food that provides well balanced diet of all the necessary elements for bodily nourishment. It is a well-established scientific fact that no one meat, grain, vegetable or fruit can supply a sufficient amount of the vital food elements required daily to build up nerves, brain, glands and tissues. The ordinary breakfast food cannot do it. This is where Vitomen Shreds steps in with its scientifically balanced content that forms a complete food by itself. Vitomen Shreds consist of finest whole wheat, oatmeal, lettuce, spinach, alfalfa leaf flour, yeast, butterfat, organic salts and honey. Besides being so highly nourishing, Vitomen Shreds are delightfully appetizing and palatable. In fact, they are the ideal breakfast food, the only one now on the market which forms a complete balanced diet without the addition of other ingredients. Unquestionably such a product only needs judicious and persistent advertising and distribution to give it first place on the breakfast tables of all Canada and the entire British Empire.

## First Purely Canadian Breakfast Food

The manufacture of ready-to-serve breakfast foods has never before been attempted in British Columbia, nor in Eastern Canada, except by subsidiaries of the great American companies, which have built up huge fortunes for their founders and shareholders. Such a concern as Vitomen Cereal Limited will become a substantial factor in Canada's industrial life. It draws its materials from the wheat fields and gardens of the prairies. It will also provide through the payroll of its manufacturing plant a large and constant contribution to the business of the west.

## LOCAL SETTINGS

Mr. and Mrs. D. F. Bohnert left on Tuesday for San Rafael, Calif., where they will be the guests of Mr. Bohnert's son during the winter months.

**WE HAVE CUSTOMERS ALL OVER THE WORLD. WHY NOT?**  
If you live in smaller towns, or where fire dry cleaning and dyeing your cleaning and dying by parcel.

**We have a modern plant at**  
Jack Crowley, who has been employed by George Jackson at Chetivell in the barn and broke his ribs. He was brought to Mrs. Turner's Hospital where Dr. Moore repaired the damaged parts, and Jack expects to be fit again in a short time. The accident while quite painful was not a serious one.

**The Raymond Sugar Factory** has been able to begin operations about two weeks earlier than last season and have been receiving larger quantities, so far the early tests show a heavier sugar content and the only fly in the ointment so far is the labor shortage to dig the beets. Some

guess I won't wait for it," packed his kit on his back and hid himself away, west bound.

Mr. Thos. Fisher, of California, formerly a resident of Cochrane, with his brother-in-law, Melville Findlay, of Calgary, were the guests of Mr. and Mrs. Rellinger, last Sunday. Mr. Fisher is returning to California within a few days.

If you meet Jack Vermont, and he does not pay much attention, you will understand that he is thinking of the ten pound boy that Dr. Giffen presented him on Monday, October 18th.

The big International plowing match which has just been held at Niagara, Ontario, was an immense success. They paid out over \$4,000 in prize money. That's a nice buy-leave for President George Jones and Secretary Fred J. Dunn to aim at in the future. The first match that Niagara held was not half as successful as the first one held in Strathmore.

The ladies of the Fennels Club are all working overtime, making up new costumes for the big masquerade on Friday, October 22nd, at Memorial Hall, and are bound to make it a great success. You will be sorry if you miss it.

Mr. John Cape, auditor for Strathmore, is in town putting Secretary Treasurer Wears through his quarterly job. Up to the time of going to press he has been unable to locate a nickel that has escaped the vision of Mr. T. M. Wears, and been deposited in the custody of Mr. Joe Van Tighem at the Royal Bank. No chance to escape paying taxes when that trio gets after the people.

Jim Martin was out with a bunch of amateur hunters on Monday night, and the whole outfit never disturbed a feather. "What can you do with a bunch like that," said Jim. "Why, there was Jim Swanson swinging on a pole, and what he thought was a bear, when it turned out to be the next mosquito on his eyebrow." The only time he goes out he is going to insist on "real hunters" for the party.

D. M. Lundie has been full of trouble all summer with his golf duties, and now new ones are peeping through with the approach of the curling season. "Just one damn thing after another," says friend Lundie.

C. W. McMillan, of the Calgary Brewing Company, was in town Tuesday, closing a contract with Lloyd Orr while the King Edward Hotel for electric light. Mac is a busy boy these days; he had breakfast in Cal-

gary, lunch in Strathmore, and expected to have supper in Banff. If some of these youngsters like Tony Drogan, but to the time of going to press he has been unable to locate a nickel that has escaped the vision of Mr. T. M. Wears, and been deposited in the custody of Mr. Joe Van Tighem at the Royal Bank. No chance to escape paying taxes when that trio gets after the people.

The wood and coal business is booming in Strathmore, as every man and Mr. Charles Keeling required another helper, so applied to Dr. Giffen, who secured for him a little drayman at Mrs. Mackenzie's Hospital on Wednesday, October 13. Charlie says he will now be able to handle all future business with despatch.

The fifth annual convention of the Calgary Rural Teachers' Association, will be held at Calgary on November 4th and 5th. The sessions will be held in the rooms of Central United Church, Principal B. H. Crowther, of Strathmore, is a member of the Executive Committee.

Some of the local residents seem to think it their special privilege to allow their live stock to roam at will within the town limits. This is a mistake, and one of these fine mornings they will find their animals in charge of one Percy Wright, with a bill of expense attached that will cause a headache. Percy does not entertain these animals without getting his pound of flesh. A word to the wise should be sufficient.

Manager Hitley has secured the Dempsey-Tunney picture for Wednesday, November 3rd. These films made a great hit at Calgary, so much so that they were held over for several days owing to drawing crowded houses. If you are in doubt regarding who is the best man, go and see your favorite in action, as every move made by the gladiators is distinct and clear. Mr. Hitley is gone to considerable extra expense to secure this film, and should receive good patronage to encourage him in bringing the very latest films.

The regular meeting of the United Ladies' Aid will be held at the home of Mrs. Milson on Thursday afternoon, October 28th. Mrs. Maroon will assist the hostess.

Harry Thompson, Tom Chamberlain, Red McKelvie, Bob Anderson, Jim Swanson, Jim Martin, E. Foster, Fred Anderson, Matt Barber and Constable Tait formed a hunting party in search of wild game, but although they carried on their vigil by moonlight, they failed to secure any birds, and had to be content with an exceedingly lonely supper. Bob Anderson made an unsuccessful attempt to shoot a rabbit, but it also would have escaped had it not been for his rusty dog.

### ROCKYFORD

Threshing has been again resumed this week, after a week of comparative idleness, during which a little was threshed and graded tough. It is to be hoped that the present good weather has at last come to stay, at least long enough to enable the remainder of the crop to be harvested without further loss or delay. At time of writing (Monday) about 50% of the crop in this district has been threshed.

Mr. S. Dorsey has purchased a large flock of sheep, which he is at present running with Mr. Geo. Thurston's flock.

On Saturday Mr. and Mrs. Geo. T. Berry, Mrs. Hugh Berry and Mrs. Harold Morgan with Billy, were visitors to Mr. and Mrs. Hugh Unwin, at Rockyford.

On Saturday night a number of people from Rockyford visiting Calgary, to hear the recital of Madame Gail Curd. They all report a most wonderful entertainment. Indeed it is a fortunate circumstance which gives us the opportunity of hearing such wonderful talent.

On Sunday, October 24th, the Rev. Thomas Powell, superintendent of Missions for the United Church will preach at Rockyford, and on Monday night, October 25th, will deliver a lecture at 8:30 p.m. The Ladies Aid will serve a supper at 5:30 in the Rockyford Town Hall in connection with the above.

On October 21, 22, 23, 24 and 25th, the Rockyford Drug & Confectionery Co. are holding their annual Harvest Sale. This event, when it will be possible to get two articles for the price of one, will give everybody a chance to get stocked up for the winter.

Mr. Smith, High School Inspector, and Mr. Buchanan, Public School Inspector, paid a visit to Rockyford last week.

On Monday night a farewell party was held in Rockyford Hall for Mr. Wayne Arthur, of the Bank of Commerce staff, who is being transferred to Nordegg, Alberta.

On Thursday evening a farewell party to Miss Leah Carpenter was given by the young folks of Rockyford. Miss Carpenter is going to take up a position in the drug store at Medicine Hat.

Mr. S. P. Hovey reports a yield of 41 bushels to the acre on 460 acres on his farm close to Rockyford. As this wheat is all in the pool it should help to pay the salaries of some of the pool's officials.

On November 8th, the Roman Catholic Tombola and Bazaar will be held in Rockyford. Remember the date. A chicken supper will be held after the bazaar.

On Friday, November 12th, a similar entertainment will be held at Rosebud.

The following new telephones have been installed: Mr. Waters, at the Hamlet, No. R12; Mr. Joe. Sloan, R616; Frank Mettel, R721.

Miss Paula Pust has been spending a few days with Mrs. Fred Campbell, at Beiseker.

### ROSEBUD

A daughter was born Sunday, October 17th, to Mr. and Mrs. Lester Cox.

Miss McCaskey, Mrs. John Martin, Mrs. H. W. Brunner and Mrs. C. H. Comstock attended the Gail Curd concert in Calgary Saturday night.

Mrs. W. H. Monroe was taken to the Drumheller hospital Saturday with threatened appendicitis. We all wish her a speedy recovery.

Howard Hyman was a Calgary visitor over the week end.

Many Rosebud friends called on Mrs. Henry Clark in her city home Sunday.

READ THE WANT ADS.

### STANDARD

Mr. and Mrs. Chris Soransen and family moved into their town home last week, and will remain in town for the winter. Mr. Carl Soransen also moved into town last week, so that his children may attend school in town.

The United Church Ladies Aid met at the home of Mrs. N. W. Thompson last Thursday afternoon. A large attendance made the meeting most enjoyable. Several new members were added to the "Aid". Plans for a bazaar were discussed and Saturday afternoon, December 4th, was chosen for the date on which the bazaar will be held. The next meeting will be held at the home of Mrs. F. S. Horton on the second Thursday in November, or should weather prove inclement, the next will be held at Mrs. L. Christensen's home.

Miss Martha Peden spent the week end at Aldrie, the guest of Miss June Eckstrom.

Don't forget the Women's Institute bazaar and dance to be held on Oct. 29th. A good time is assured.

Mrs. J. P. Hansen and sons, Walter and George, were visitors to Calgary last week.

Mrs. Pete Hansen went to Calgary on Thursday.

Mr. Hugh Farthing spent the week end in Calgary.

A few Standardites attended the Gail Curd song recital in Calgary last Saturday.

Threshing was carried on intermittently last week, owing to unsettled weather conditions. It is estimated that about fifty per cent. of the threshing is finished in this district. Mr. and Mrs. Otto Christensen and family left on Saturday for St. Paul, Minn.

## Slats' Diary

Friday—If I was Jake I wouldn't go and see any grand opry shows until he knows more about a few things like that. Lou also are fairly and Jake and me and him went to see a cop-sit at Calgary and the orchestra played a few pieces and then a lady got up & sang and Cyril Godwin kept a waving a club at her and Jake and me I sent her singing the Song rise and I sed I guess she was and I sed well then what does that fellow keep acting like as if he was going to slam her with his stick for them.

Saturday—Bilsters was up here at are house this morning & we was playing to gather and me give me a couple apples. I of them was big and I was

## PERSONAL GREETING CARDS

Tokens of Friendship that Express the Spirit and Goodwill of the Christmas Season.

They scatter sunshine and renew friendships as nothing else can do.

New samples for 1926 just received.

Place your order now. Don't wait for Xmas rush and be disappointed. Pay for them December 1st.

Remember your every friend at Christmas.

## The Strathmore And Bow Valley Standard

PRINTERS AND PUBLISHERS

little. She told me to give Bilsters his check. Well I did, I sed to him he had have the little one for nothing. I was afraid if I had then both out in front of him he would forget his manners & take the big one.

Sunday—I went to shave to get ready for church this morning and finely I heard him in the bath room and he sed Ouch, then he called me and sed what the matter with this razor it wont cut a hair. Ma sed, O that just yure imagination it was all rite yesterday when I cut the oil cloth to put under the stone.

Monday—Mrs. Gillens sister is here on a visit and she has just got back from a place called Zone across the ocean. She says we have lots of Italians in this country but she believes they are more of them over there.

Tuesday—Well when I am home this evening ma was sewing a button on pa's best shirt and had bawt son of his furthest ham for sand wiches and when pa cum in she sed I deary how well you are looking today. So I spoke they are a bridge game on for tonite.

Wednesday—I guess Mr. Millers trip to Calgary to see the Tanager-Tanager pictures effected his mind. When he cum home I heard him telling pa that he had lost a thousand \$s shootin krapes. But pa never let on.

### BUILDING PERMITS

HIGHER THAN FOR

MANY YEARS

OTTAWA, Ont.—There was a seasonal decline of 36.6% in the value of building authorized by 63 cities in Canada during August as compared with July, but is the more significant comparison with August last year there was an increase of 24.9 per cent. The aggregate for the month under review was \$11,874,552, while in the preceding month it was \$18,717,628, and in the corresponding month of 1925 it was \$9,511,008. The cumulative value of permits issued in the first eight months of 1926 was \$109,211,942, a total greater than for any similar period since 1919.

All subscriptions payable in advance. No exceptions.

Contributions, articles and letters intended for publication must be signed by the writer.

**LEGAL AND TABULAR ADVERTISING**

All legal advertising charged at the rate of 15 cents per cent line, all display reckoned on point basis; all subsequent insertions at 10 cents.

Commercial advertising rates furnished on application.

All advertisement changes of copy must be in hands of printers by noon on Monday or no changes can be made or ads. discontinued.

Notices of entertainments, meetings, sales, etc., at which admission is charged, articles sold, or a collection taken, with the exception of actual church services, will be charged for at regular advertising rates.

**NATIONAL POPPY DAY CAMPAIGN ARMISTICE DAY**

The Canadian Legion have undertaken to dispose of one hundred thousand poppies on Armistice Day.

Primarily, it is to honour our fallen soldiers and show that we, as citizens, do not forget. This tribute is paid on this day in all nations of the Allies.

Secondly, the greater display of poppies means increased employment to our disabled soldiers in Alberta, who make up these poppies. All poppies sold in Alberta by the Legion have been made in Alberta.

Thirdly, whatever organization sets for the Legion, raises a fund which can only be used for local relief or charitable purposes.

Fourthly, a small profit is made by the Legion which helps in a small measure, to reduce the Legion's expense in handling the hundreds of adjustment cases of deserving disabled widows, or dependents.

Wear a poppy on Armistice Day.

**OPPORTUNITY FOR CANADIAN PRODUCTS IN BRITISH MARKET**

Hon. F. C. Larkin, Canadian High Commissioner at London, England, is a Canadian visitor.

Since his return to Canada he has received a cablegram announcing that a trial order has been received for 10,000 boxes of Canadian butter on No. 1 quality per week for ten weeks.

If it can be demonstrated that such an order can be satisfactorily filled and the quality maintained, the Canadian butter trade will be re-established on the high level that it held many years ago.

The initial order that has been placed is an endorsement of the methods of inspection and grading that has developed by the Dominion Government.

The British Government is spending about two and a half million dollars to increase the demand for export products, and the Dominion and provincial governments would be well advised to carry on independent campaigns to further stimulate the popularity and consumption of not only dairy products, but also for fruits and bacon.

There is absolutely no reason why Denmark should hold such a preference in the British market for dairy products, when the Canadian article may be produced fully equal in quality if the proper conditions are observed and maintained.

Denmark has held the British market solely upon the matter of quality and will continue to hold it until Canadians prove that the quality of their products are at least equal as good.

The first point to reach is that of "quality", and then "tell the world" by a judicious advertising campaign.

**CITY LIFE DOES NOT IMPROVE CONDITIONS**

There has been a tendency on the part of the rural population to move into the towns. What is the attraction or reason? That it is a fact is verified by the statistics of all countries.

Forty years ago only about twenty per cent. of the population lived in the towns and cities, while today probably fifty per cent. are so located.

The factory plan of manufacturing has had much to do with the increase and the factory system certainly has not improved the condition of the workers, while it has given the employer a more efficient day, so one factory a minute will argue that the average employee is as well off in the city as he was while on the farm.

It is subject to many of the whims of dictatorial employers and

insolent foremen; he never has the slightest idea when his weekly pay envelope may be discontinued, and this is especially the case as he advances into the age limit when his best producing days have passed.

While the farmer has to contend with climatic problems and often engage in battles with insects until he is at his wits end to meet the condition, it is only a matter of a short time until whatever losses have developed in the rural districts, will reach the city causing lack of employment through the decreased buying power of the farmer.

The rural dweller very often does not get a proper perspective of city life until after leaving the farm, and when he is disillusioned it is very often too late for him to return, in fact he rarely does return.

The telephone, the radio, and the automobile are performing a wonderful service in making the farm more attractive, all tending to make the farm home such that the young people will not hanker for the cities, and if they remain at home happy and content, the fathers and mothers, in most cases, will not wish to make the change.

**WILL ALBERTA SHIP COAL TO ONTARIO?**

During the recent Dominion Election there was much talk about shipping coal from Alberta to Ontario and from time to time for the past couple of years, the public have been given figures without end in regard to costs, and what Sir Henry Thompson would do or would not do in connection with a freight rate for hauling to the eastern province.

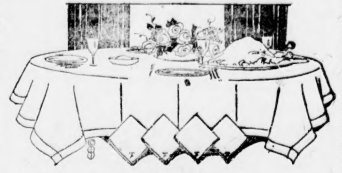

The net results are that a very small tonnage has ever reached the Eastern Canadian market, and if anyone knows just what are the actual requirements necessary to capture this market, they certainly seem to hold it a deep, dark secret.

To the fellow on the outside looking in, the whole affair appears to be under the control of some unseen influence that is not to say the least friendly to opening a market for Alberta coal.

If the proposal is absolutely unsound and impossible, why cannot it be so explained and let us forget the whole matter.

On the other hand, if it is possible to supply this market and thereby develop Alberta mines, Ontario would benefit not only in having an abundant

supply of coal, but the impetus to business through the purchasing power of Alberta miners, would be of immense value to Ontario and Quebec manufacturers.

Surely some of our members of parliament should be able to solve this problem.

**BIG SALE OF**

ONTARIO HARDWOOD

TIMBER LIMITS

— o —

TORONTO, Ont.—It is reported that sale of about 1,500 square miles of hardwood to the Ontario Hardwoods

Limited, is about to be completed by the Lands and Forests Department of the Ontario Government. The agreement between the company and the government, as originally drawn up, provides that the company is to spend \$1,000,000 on plant construction and employ a minimum of 1,000 hands, as well as pay the government a royalty on wood cut. Their operations will necessitate the cutting of about 25,000,000 feet of wood annually. The wood is located on the north shore of Lake Huron, in the Soo-Brace Mines, Thessalon district.

**IRRIGATION WIGENS**  
**AREA AND INCREASES**  
**CROP VARIETIES**  
—0—  
CALGARY, Alta.—Irrigated lands in  
Alberta cover an area of 1,285,229  
acres, according to the latest survey  
of the Federal Department of the  
Interior. Irrigation has widened the  
extent and increased the variety of  
crops in Southern Alberta. In every  
district where irrigation is now prac-  
ticed the crops raised include alfalfa,  
wheat, oats, barley, corn, timothy, rye,  
potatoes and sugar beets; and the fact  
that the average per acre value of all  
crops raised in the Lethbridge district  
during the past five years is placed  
at \$25.17 indicates the results secured.

**TOWN OF STRATHMORE**
